

Five and Six year old Futurity Sections

Horses must enter using the separate entry form and pay the entry fee of £50 which must be included with this completed results form.

Participants will need to obtain a record of competitive success on the basis of the following form. If results are from a single discipline, a printout from that discipline's web results service will be accepted.

There must be no evidence of over exposure of young horses within these sections. This will be penalised.

All affiliated performance results from this season should be included for avoidance of doubt – this includes age related competition and open competition. In-hand results are not required.

Results will be randomly verified.

Results must arrive with the entries secretary by 1 December and must cover the period 1 January to 15 November.
